WORK EXPERIENCE

Founder & CEO/ Product Designer 2023 - 2024

DEVS AND FOUNDERS

I designed more than 24 digital products for Startups. I helped form technical teams for these Startups. I also connected them with developers so that some of them could have their CTO.

Founder & CEO 2022 - 2023

PRINTEDDY

I designed the product, from market research to UX/UI design, developed the website, and was in charge of making contacts with influencers. I was in charge of looking at the legal issues for trademark and copyright contracts.

Founder & CEO 2021 - 2022

PULPI

I designed the product, from market research by conducting surveys, to UX/UI design, I developed the website. I led an initial team of 8 people for the development of the app, I was in charge of the selection and recruitment process

Product Designer 2021 - 2022

STL

I was in charge of market research, setting up focus groups, designing the product concept and leading the team in project creations from SAS as a platform for condominiums to P2P and B2B2C apps as a Super App.

Founder & CEO 2020 - 2021

RANTIY DELIVERY

I designed the product, from market research by conducting surveys, to UX/UI design, I developed the website. I led an initial team for the development of the app, I was in charge of the selection and recruitment process

Founder & CEO 2019 - 2020

RANTIY WALLET

I designed the product, from market research by conducting surveys, to UX/UI design, I developed the website. I led an initial team of 12 people for the development of the app, I was in charge of the selection and recruitment process

UX/UI Designer 2018 - 2019

Freelancer

I carried out the UX/UI design and created prototypes for more than 10 projects, among which was an app to find Bartenders, an app to earn money by answering questions, crowdfunding for Startups, an app for beauty products, an app based on geolocation, a multi-service super app, etc.
